Al Rashid – Graphic Designer

Amongst its many successful website implementations, inDigit provided a fully functional Flash website for one of the major upcoming graphic designers from Kuwait.

Using our development staff's extensive experience in creating Internet systems using HTML, and JavaScript, PHP and MySQL along with a variety of other technologies, for Al Rashid we created a quality visitor experience with a standard Internet browser, along with web page-based interactive tools for site administration. This gave the designer the full exposure for his work which was required and delivered specific to Al Rashid style and preferences.

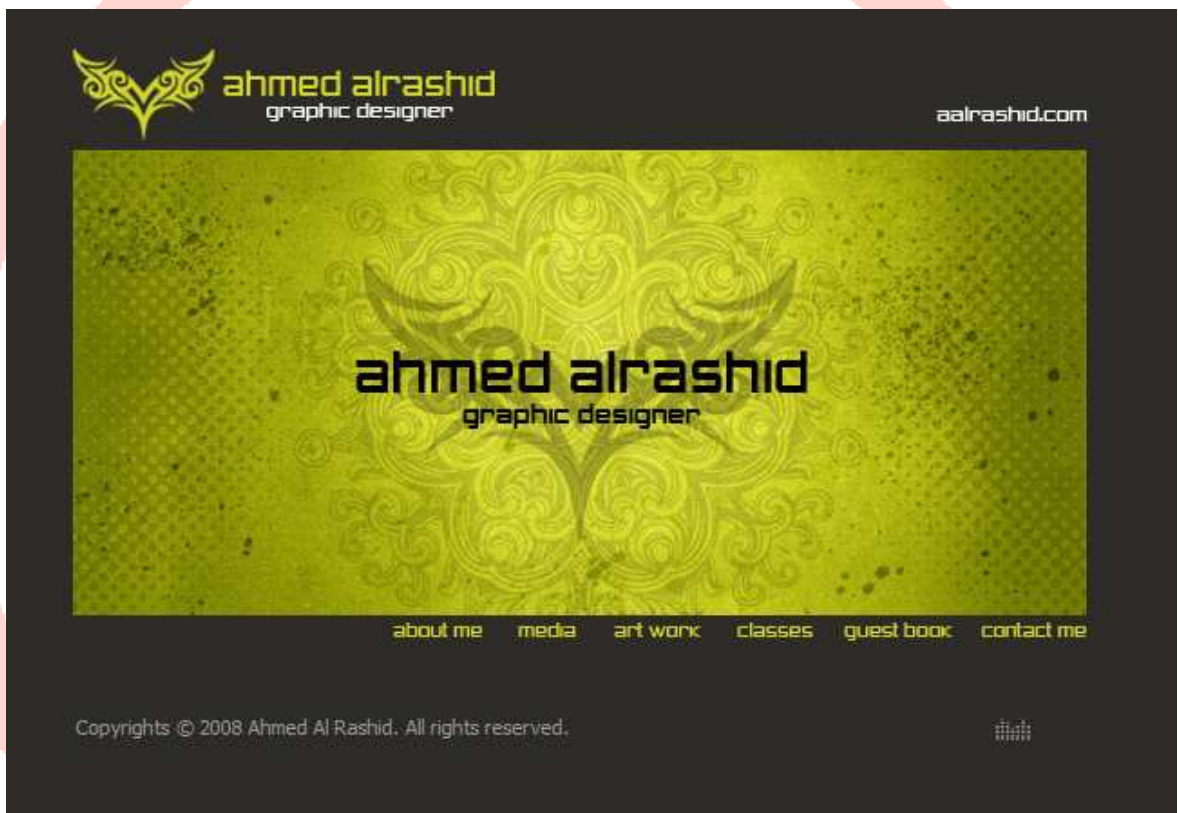

Some key website features implemented:

- Search engine optimization (SEO)
- Dynamic client side interface for easy updates of website content.
- Website listed in Top Search Engines and Directories like Google, Yahoo, MSN etc.
- 500 MB of Disk space
- 15000 GB Data Transfer
- 15 POP3 Email Accounts
- 15 MySQL Database
- Free domain registration. (.com .net .org)
- Support of : PHP, CGI, MySQL, Perl
- Online statistical report helps you to check your website traffic states.
- Web-based email program: allow you to access your email from website
